SKILLS

JAVASCRIPT

ANGULARJS / NODEJS

JQUERY

HTML / CSS

BOOTSTRAP

ADOBE CS

WORK EXPERIENCE

APPRENTICE @ ELEVEN FIFTY ACADEMY

Fishers, Indiana

Worked independently as well as with teams to develop web applications using MEAN stack technology. Used Adobe CS5 to develop logos and brand identities for several businesses. Designed, developed, and deployed multiple responsive websites for local businesses. Created UI wireframes for numerous application concepts and converted them into functional applications using Node.js, Angular, Express.js and Bootstrap.

PAINTER / INTERIOR DESIGN CONSULTANT @ C.HILL CO.

Bloomington, Indiana

Helped run my family's interior painting business providing high-end custom painting services and light construction to individuals and businesses. Designed a website that led to an increase in client inquiries. Pioneered and implemented a plan to convert our company to be environmentally friendly, reducing our waste and carbon footprint, while providing a safer living and working environment for our clients by switching to no-VOC paints with minimal off-gassing. Provided design consulting services to clients using knowledge of interior design principles and color theory, leading to a high rate of word-of-mouth referrals.

ENGLISH TEACHER @ GYEONGGI DAEMYOUNG H.S.

Suwon, South Korea

Independently created a full two-semester curriculum for three grades of public high school students. Designed interactive multimedia presentations and accompanying class worksheets and activities to teach English grammar and improve cultural awareness. Worked cooperatively with several co-teachers to design and implement a disciplinary action plan.
